work + play

22

**THE NATURAL SPEAKER** Unlike conventional speakers with their amplified bass and high tones, Joon&Jung use the acoustic properties of a porcelain and wood construction to create a handcrafted speaker that provides a mellow, mid-tone sound and a natural resonance, with a pleasant, slight echo, [joonjung.com](http://joonjung.com)

23

**LOCK** A Bakelite ball and three rods of Ash is all it took for designer Sylvain Willenz to create this strikingly simple coat stand, [tamawa.be](http://tamawa.be)

24

**ALARM DOCK** This Beechwood docking station recreates the nostalgia for the humble bedside radio alarm with the use of an iPhone, [areaware.com](http://areaware.com)

25

**EGON** The Ash frame of this flat-pack table assembles without any additional connecting elements and its table top also slots neatly onto the frame, [moormann.de](http://moormann.de)

26

**CORK PEG** Designed by Canadian duo Todd MacAllen and Stephanie Forsythe of Molo Design, this hanging storage system is mounted on the wall using magnets. When items are hung in middle of the peg, it has a maximum bearing capacity of 2.2 kilograms, [molodesign.com](http://molodesign.com)
