Geo-Birdhouse

PURCHASE INFORMATION: \$95.00, [BUY IT HERE](#).

+ ads

This is quite possibly the coolest birdhouse ever.

Inspired by the geodesic dome popularized by architect Buckminster Fuller. Its rounded shape makes an ideal nesting place for wrens, finches, swallows, warblers, and other small birds. An easy access door allows for simple cleaning so you can freshen the house at the start of each season.

Designer: Kelly Lamb
Material: Ceramic
Dimensions: 8 x 8 x 8 inches
